About The Milken Institute

The Milken Institute is a nonprofit, nonpartisan think tank.

For the past three decades, the Milken Institute has served as a catalyst for practical, scalable solutions to global challenges by connecting human, financial, and educational resources to those who need them. Guided by a conviction that the best ideas, under-resourced, cannot succeed, we conduct research and analysis and convene top experts, innovators, and influencers from different backgrounds and competing viewpoints. We leverage this expertise and insight to construct programs and policy initiatives.

These activities are designed to help people build meaningful lives, in which they can experience health and well-being, pursue effective education and gainful employment, and access the resources required to create ever-expanding opportunities for themselves and their broader communities.

DESCRIPTIONS

Aligned and at Ease Yoga

Instructor: Gillian Cilibrasi
An alignment-based, slow flow practice to create an energized body and a quiet mind. All levels of skill welcome. Please wear loose, comfortable clothing.

Be Crystal Clear Sound Bath Meditation

Instructor: Shekar 'Sugar' Panbehchi
A Sound Bath Meditation is a deeply relaxing experience that uses specifically tuned vibrational instruments such as crystal singing bowls and gongs to tune into your chakra energy centers using different tones and frequencies. The experience will promote deep meditation, help diminish insomnia, alleviate anxiety and stress, and heighten clarity while improving the ability to concentrate. Afterwards you will be left feeling relaxed, restored, and rejuvenated.

Build Your Immunity Using Essential Oils

Speaker: Dr. Tina Wong
Take a moment to BREATHE, while you explore pure and therapeutic essential oils for physical and emotional wellness. This will be a guided calming experience where you will learn how a few small drops can lead you into better overall health and wellness.

Dogpound

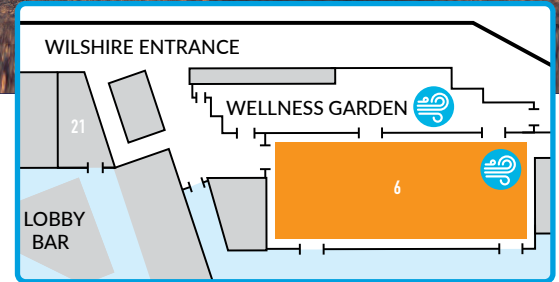

This 45-minute workout led by Dogpound's elite trainers will address full body conditioning movements designed to improve performance, enhance mobility, and build strength. Each of Dogpound's daily sessions will leave you feeling strong, energized, and balanced within body and mind.

Healing Sessions: Immunity Boost and Relaxation: Chair Massage, Reiki, and Aromatherapy

An experience encompasses the integration of mindful movement, restorative poses, essential oils, reiki and in-body meditations. While these can be done both seated in chair or laying down it is the integration of these modalities that lends itself to a balance of mind, body, and breath. These sessions last approximately 15 minutes each.

Illuminated Leadership: A Progressive Evolution of Consciousness

Speaker: Chenoa Maxwell
One can only lead others responsibly having understood and mastered how to lead self. Awakened Leadership begins with your ability to lead your personal life in a way that is conscious and congruent with your highest values and intentions. From here, greater collaboration, increased vision, and overall leadership expand exponentially in its impact and influence.

The Wellness Garden is located just north of the Wilshire Garden.

Instructor: Sandra Smith

*A complimentary shuttle will leave the Beverly Hilton at 6:00am to the Dogpound West Hollywood location and return after the class.

Live In Alignment

Instructor: Koya Webb
Koya will guide you through breathwork, chakra alignment and gentle movement to help you identify where you might have energy blocks and show you how to daily reset your energy and raise your vibration at any time of the day!

Rise and Flow Yoga

Instructor: Alexandra Schueler
Experience the benefits of waking up to yoga as you stretch your body, awaken your mind, and fuel your spirit. Salute the sun with a smile and gracefully work out all of the kinks and tightness from your night's sleep. You'll feel energized, have amazing mental clarity, and will be ready to flow through your day with ease.

Stretch It Out

Instructor: Sandra Smith
Work out the kinks with this chair-based practice helps you safely create greater range of motion and ease by strategically working deeply into the muscles and joints while calming your mind if you are feeling tight, tense or not as flexible as you'd like. You'll walk out refreshed with a new spring in your step and a few tools to take back to the office!
